

MAILING BAGS

Sometimes you need your Mailing Bags to work a little harder for your brand. It might be that you need them to advertise your business and shout about your services or provide crucial storage and safety advice. Here at Polybags we offer a wide range of customizable products. By creating a personalised Mailing Bag you will provide a durable and clear message to your customers throughout the delivery process, whether it be a walking advert for your business or a discreet package that conceals it's contents.

Mailing Bags Specialist

Extrusion

As a manufacturer we have various types of polythene film your mailing bags can be extruded from including:

- Clear.
- Co-ex (white/black).
- Various colours.

All are available in different thicknesses to suit your individual requirements. Biodegradable additives can also be added at this stage of the process.

Print

Your uniquely designed flexographic plates are used to transfer your designs onto the extruded polythene.

We can print anything from a simple 1 colour design to a complex 4 colour printing process.

PANTONE MATCHING AVAILABLE

Conversion

Our size options allows you to send anything from jewellery or phones to large items like duvets and multiple clothing packages. Self adhesive 'Sealing Strip' options include:

- Permanent tamper proof.
- Resealable.
- Double Strip.

The Double Strip coupled with a carrier handle is increasingly popular for 'Click & Collect' retail e-commerce businesses.

We can help with orders large and small

Polybags have a wide range of Mailing bags enabling customers to protect and transport their goods efficiently. We can manufacture one-off or repeat orders of a couple of thousand units or even a couple of million, depending on your requirements. So from individuals to some of the best loved high street brands and big businesses, Polybags is constantly helping customers with their mailing process. Don't just take our word for it, read our customer feedback online on **TrustPilot** reviews.

Simply send us over your design with your order. If you're unsure over what might be the best choice for your design just pick up the phone and our friendly team will be happy to discuss the best personalised solution for you. All we need to know are:

- Quantity required
- Size(s)
- Number of colours of your artwork

*The surface imperfections in recycled content polythene may cause less adhesion to certain print inks. Please check with our sales team for further information.

How do I create a personalised Mailing Bag ?

Simply send us over your design with your order. If you're unsure over what might be the best choice for your design just pick up the phone and our friendly team will be happy to discuss the best personalised solution for you. All we need to know are.

- Quantity required
- Size(s)
- Number of colours of your artwork

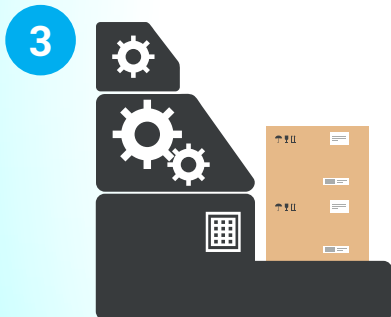

4 Simple Steps to print your personalised mailing bag

Send us your artwork. (We need a **high quality** resolution file of at least 300dpi. Strong colours work best on white polythene).

We send you a PDF proof of what your artwork will look like on the mailbag for your approval.

When you have approved the design we make your unique printing plates. Your bags will now be manufactured.

Delivery within **3 weeks** of approving artwork.

HOW TO MEASURE - MAILING BAGS FOR BULKY/LARGE ITEMS

*Depth is shorter of the sides.

BOX WIDTH + BOX DEPTH + 2cm

BOX HEIGHT
length + **BOX DEPTH**
+ 2cm

*Recycled polythene sometimes has a 'burnt' or 'smoke' like odour. This is completely normal and does not affect the overall performance of the material. The smell may transfer to certain materials (e.g. clothing, fabrics) if placed in direct contact.

Compostable*

Ivory white semi transparent Compostable mailing bag which material conforms to EU compostability standard EN13432.

* Due to the nature of the material the adhesive peel & seal strip is only semi-permanent on initial contact sealing. A permanent seal requires the mailer to be left at room temperature for several hours once sealed.

Compostable Clear

*Our Clear Compostable material has a slight frosted clarity in appearance when compared to traditional polythene.

COMPOSTABLE OPTIONS

New Technology = New Possibilities

Polybags is currently investing over half a million pounds in new extrusion and blending technology. This capital investment will increase production capacity by 1.5 million bags per week and allow more sustainable blends of material film to be developed throughout 2022.
